

ENVIRONMENTAL BENEFITS OF INCREASED CO₂

Is CO2 Plant Food? Here is what happens with more CO2

ENVIRONMENTAL BENEFITS OF INCREASED CO₂

Source: Hermann, Anyamba and Tucker (2005).

Sea-Level Rise & CO₂

Is There Cause and Effect? <u>NO!!!</u>

Does a Rise/Fall in One Increase of Decrease the Other? <u>Absolutely NOT!!!</u>

NASA TRCS

One More Mission

In 2008, some climate lectures generated interest at JSC.

Mostly Engineers, Physicists, Astronauts, Meteorologists, etc. from the Apollo era (Over 1000 combined years of experience).

Chair Hal Doiron announced its formation at Chicago's ICCC-7

NASA TRCS

One More Mission

Dozens of climate lectures – all within the expertise domain of our members followed suit.

Many presentations delivered are found on the TRCS website. https://www.therightclimatestuff.com/

Chair Hal Doiron and I wish to thank Heartland for generating widespread interest at ICCC-7!

Weather & CO₂

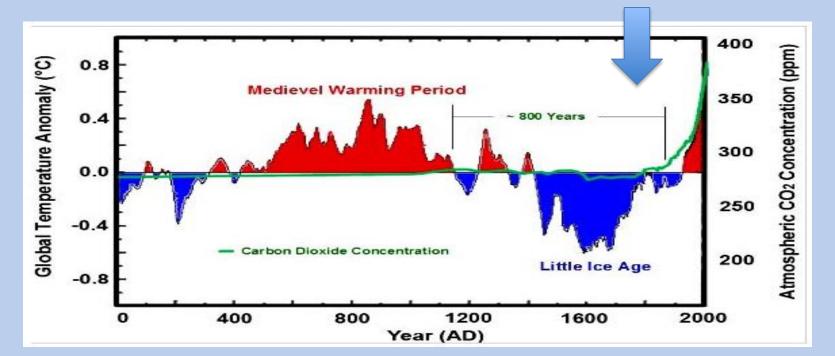

Is there Cause & Effect? Not Quite What You Might Think!!!

Does CO₂'s Rise or Fall Influence Strength, Severity, or Frequency of Weather Events? Correlation ≠ Causation

Measuring the Measurements

Measure - Calibrate - Validate

In GOD we trust!!!

All others bring DATA

Measuring the Measurements

Measure - Calibrate - Validate

In GOD we trust!!!

All others bring DATA

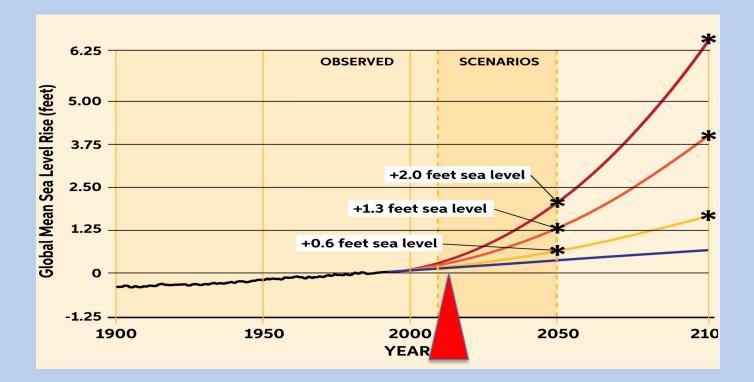

Every model claiming SLR/CO2 acceleration linkage is on its way to Failure including USACE, the 2014 National Climate Assessment, State versions of the same, all showing over 6 feet of various CO₂ driven Sea-Level Rise scenarios by Century's end!

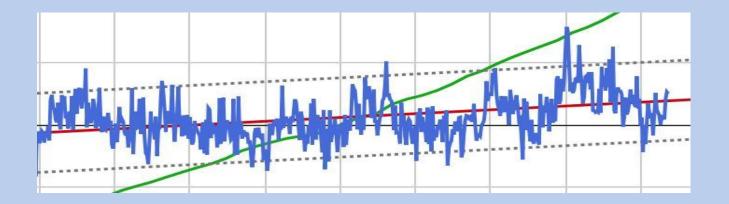

NH CRHC Sea Level Rise Scenarios (2016)

The claimed SLR/CO₂ linkage is barred from use in any law, regulation, or policy, until the 95% confidence zone is sequentially pierced for 10 yrs.

EPA needs to get back on mission:

Focus on Poisons, Carcinogens, Toxins and Processes that kill or injure people. CO₂ is not among them.
