

SUSTAINABILITY

Reality * Absurdity * Duplicity

Heartland Institute Climate Conference – 2017

Wanted: “*A common enemy*”

- Looming disasters
- Global calamities
- Threats to our very survival

Addressing Earth's *looming disasters*

Resource depletion

Unethical, Unsustainable

“It wouldn’t be sustainable”

Three Forms of Sustainability

Real Sustainability

Public Relations Sustainability

Political, Politicized Sustainability

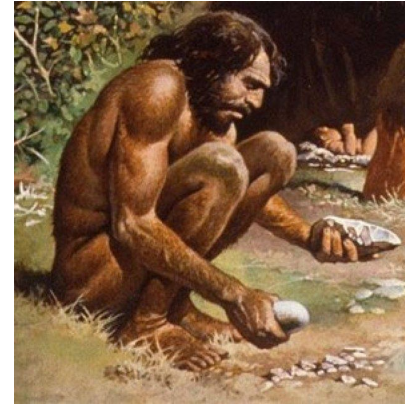

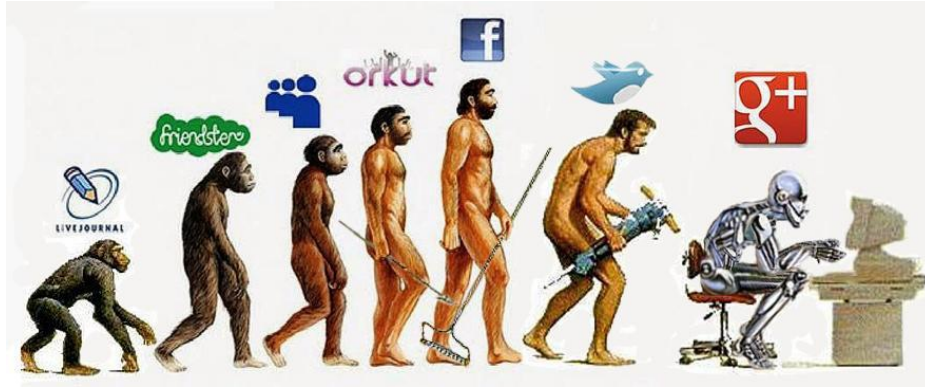

Generational conflicts

We may meet the
needs of current
generations only to
the extent that ...

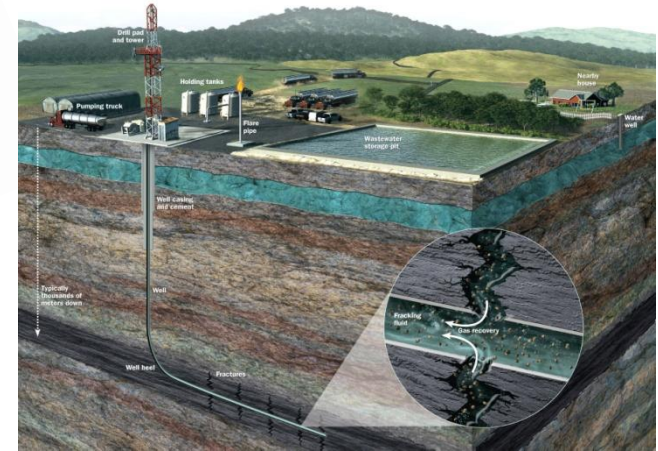

The accelerating pace of change

“What happen when flint gone?”

New technologies * New raw materials

Forecasting the next 50-100 years

Sustainable and renewable ??

Riches for the politically connected ... headaches for the rest

Still more bogus sustainability

It's not sustainability. It's control.

GOVERNING
for
SUSTAINABILITY

THE WORLDWATCH INSTITUTE

Copyrighted Material

Empowering people with electricity

- 1.2 billion – global
- 330 million – India
- 730 million – Sub-Saharan Africa

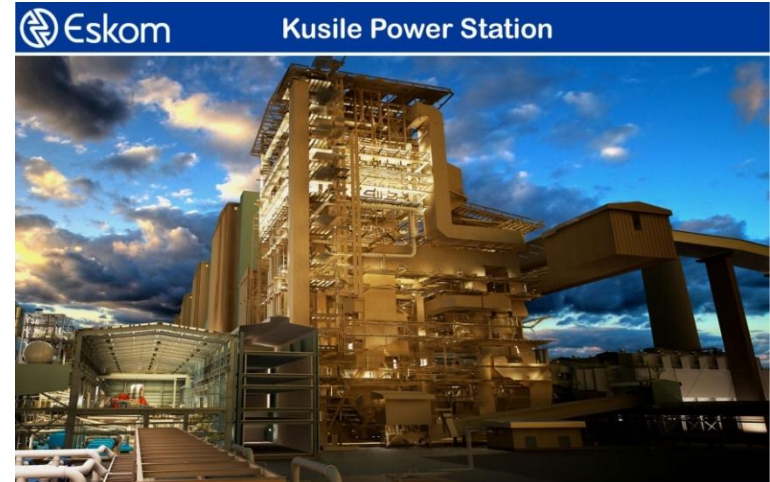

Sustainable laundering

Dung patties for cooking and heating

Sustained poverty for Africa?

True sustainability for all humanity

Don't do what rich countries are
doing now that they ***are*** rich ...
